

THE UNIVERSITY OF ARIZONA®

# The Manduca Project

*“Manny Manduca”*

*Teacher’s Manual  
Third Edition*

Edited by Larry Kendall

Illustrations by W. Eugene Hall  
and Larry Kendall

# *Acknowledgments*

The editors wish to thank the following individuals for their support of The Manduca Project and the preparation of The Manduca Project Teachers' Manual, Third Edition:

## *First and second editions*

**Jennifer J. Nass**, author and editor, Second Edition.

**W. Eugene Hall**, illustrator, Second Edition.

**Mary "Manduca Mama" Hernandez** for the unfailing supply of Manduca eggs and diet.

**Dr. John Law** for original program ideas and support.

**Carol Bender** and **Genevieve Kenney**, Department of Molecular and Cellular Biology, for workshop organization and coordination.

**Irma Lopez** and **Patricia Weaver**, Tucson Unified School District (TUSD), for participating in the initial development of The Manduca Project, teaching workshops, and generating materials.

**Gail Paulin**, TUSD Secondary Science Specialist, for program support and organizing professional development credit for participating teachers.

**Dr. Alan Smith** and **Diane Smith** for their contributions and hard work on the first edition of this manual.

**Dr. Mike Wells**, who provides scientific ideas and expertise, and supports the infrastructure which makes The Manduca Project a reality.

## *Third edition*

**Lilian Canavoso**, Research Associate, Biochemistry, for research contributions.

**Larry Kendall**, Lunar and Planetary Laboratory, designer and editor.

**Heather Stein**, Arizona Research Laboratories Division of Neurobiology, for manuscript contributions and review.

## *Sources of support*

Howard Hughes Medical Institute Department of Biochemistry and Molecular Biophysics Molecular and Cellular Biology.
